URBIAN
ECO SUITES

We are proud to launch **THRIVE**, our new initiative focused on sustainability.

It's based on the idea that we want our team and clients to thrive while creating positive change. We believe in leading by example and creating sustainable swag solutions for our clients. Small changes truly can make a big difference.

Reducing Our Carbon Footprint: We are working to reduce our carbon footprint by making smarter and more environmentally friendly decisions.

Supporting Local: Image Source is supporting local by partnering with small businesses in our area. We also work to source products in your team's area—all over the US and across the globe.

Ethically Sourced: It's our priority that products are ethically sourced and follow fair trade practices.

Socially Responsible Partnerships: Working with socially responsible vendors allows us to create sustainable end-to-end solutions for our clients. It allows us all to give back and create opportunity in our communities and around the world.

We are striving to push forward as a leader in our community. Together we can make a difference and THRIVE.

Sustainable Materials

Bamboo: One of the most versatile eco-friendly materials that is 100% biodegradable. This material is popular among accessories like tote bags, mugs, and cutlery.

Upcycle: Repurposing materials to create something new is the best way to be environmentally conscious and make sustainable decisions.

Wheat Straw: A rigid, durable stalk left over after wheat is harvested. This is a smart, environmentally friendly alternative to plastic.

Recycled Cotton: There are two types of recycled cotton: Pre-consumer which is what's left over from manufacturing cotton goods, while post-consumer comes from previously manufactured cotton, such as t-shirts, towels, upholstery and more.

Socially Responsible Partners

A close-up photograph of several green bamboo stalks. The stalks are covered in small, clear water droplets, suggesting they have been recently watered or are in a humid environment. The background is a soft, out-of-focus green, creating a natural and fresh atmosphere. A semi-transparent green horizontal band is overlaid across the middle of the image, serving as a background for the title text.

Sustainable Materials

Wheat Straw

You might say it's a "solid" substitute for plastic: wheat straw is the rigid, durable stalk left over after wheat is harvested.

Hundreds of different fibrous plants can be manufactured into sustainable tree-based paper products, most notably wheat, rice, hemp, flax and sugar cane. In many agricultural processes, straw is treated merely as the agricultural waste that remains after grain or juice is extracted from the crops.

Wheat Malibu Sunglasses

Composed of reclaimed stalks from wheat, These lenses offer UV400 protection and 100% UVA & UVB protection.

Buildable Wheat Straw Straw Kit

Composed of reclaimed stalks from wheat, this straw kit contains a 9" wheat straw and wire cleaning brush. The straw pieces unscrew to fit inside the travel case for easy storage.

In just the U.S. alone, an estimated 500 million straws are used every single day.

Wheat Straw Qi Charging Pad

Charging pad is made of wheat straw, an eco-friendly byproduct of wheat production. A small indicator light turns blue when the device is in use. Only compatible with Qi-enabled devices.

Wheat Straw RFID Card Holder

Card holder keeps one credit or ID card safe from RFID crime. "RFID" is engraved on the front of the case. The card holder is made from a combination of 51% wheat straw and 49% PP.

Wheat Straw Bluetooth Speaker

This speaker produces clear sound at over 1.5 hours at max volume. The instruction manual and giftbox is also eco-friendly made from FSC Certified recycled paper. Bluetooth version 5.0. 19" micro-USB charging cable included.

Wheat Himalayan Tumbler

Composed of reclaimed stalks from wheat, this double walled tumbler is perfect for hot and cold drinks. Snap-on lid with thumb-slide and rubber gasket.

16oz Tumbler with Straw

Made of wheat stalk from reclaimed stalks of wheat. Features a screw-on lid with matching 9" buildable straw. Double walled construction for insulation.

Plastic & Wheat Straw Lunch Box

Pack your food in style with the plastic and wheat straw lunch box. This item features a tray to keep your food separated and a locking lid with handles for carrying.

14oz Wheat Straw Mug with Stainless Liner

Push on lid with twist secure closure. Double-walled construction with stainless steel liner. Outer wall and lid feature over 50% wheat straw mixed with plastic.

13oz Wheat Straw Bistro Mug

Features a wheat straw barrel mixed with plastic in a classic mug style with handle.

In it's lifespan, a pen will make more than 3,000 impressions.

Wheat Writer Series

On average, a pen will write more than 1.2 miles of ink. The Wheat Writer Series is made using reclaimed stalks from wheat. Make an impression that lasts for 1.2 miles.

Wheat Straw Cutting Board

A miniature cutting board is great for picnics and enjoying the outdoors. It is made from 50% plant fibers and features a built-in handle.

Wheat Straw Bento Lunch Set

A two compartment lunch set that comes with a 3-piece utensil set and an elastic strap for holding it all together. Made of 50% Wheat straw with a bamboo lid.

Wheat Straw Coffee Cup

This 12oz traditional c-handle mug is made from 50% wheat straw and polypropylene. Lightweight and durable.

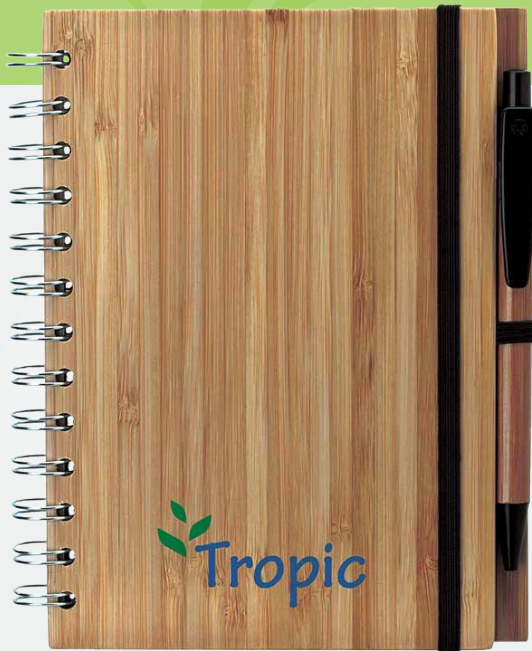

Bamboo Fibers

The production of bamboo into bamboo fibers has a lower environmental impact than most other forms of fiber, especially synthetics.

Bamboo is an excellent alternative to traditional wood material. It grows much faster and can be harvested anywhere from 1 to 5 years after planting.

Bamboo Coaster Set

A set of four bamboo coasters with a matching bamboo holder. Bamboo is a natural material that is biodegradable and will breakdown over time.

Bamboo Notebook and Pen Set

Features a bamboo front and back cover with 80 pages of 4.75" x 6.75" lined paper, silver spiral, black elastic closure and pen loop. Includes a matching bamboo pen.

Stacking Bamboo Bento Box

This bento box has two food storage containers and features built in utensil storage between the layers. Bamboo top can also double as a cutting board. The use of bamboo helps to cut down on plastic usage which benefits the environment.

Gaia Bamboo Fiber Line

Bamboo fiber products help reduce the need for petroleum-based plastics. Bamboo is a fast-growing plant that thrives without fertilizer or pesticides, thus making it the perfect resource to harvest.

Bamboo has a
tensile strength
that is greater than

STEEL.

Midori Bamboo Twill Line

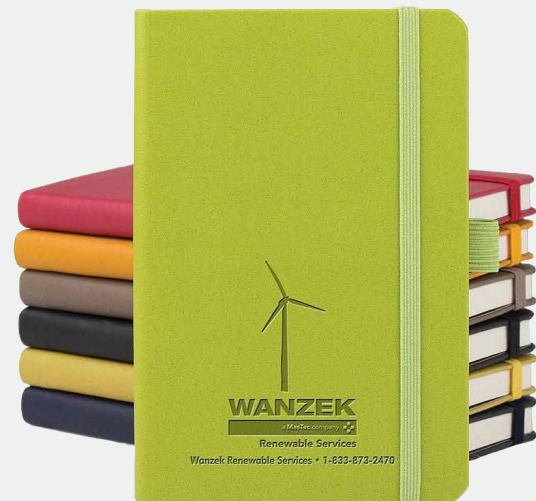

This sustainable line of bags and coolers are eco-friendly and made with natural certified bamboo fiber fabric.

ApPeel Journals

ApPeel journals are made from apple peels that are ground and emulsified into an organic paper. This ground breaking eco-friendly product is animal friendly, sustainable and all natural.

On average, Americans use 650 pounds of paper each year.

Recycled Materials

45,400

The number of children Cotopaxi has provided educational tools to in the last two years.

Cotopaxi Bags

Cotopaxi uses high-quality, remnant fabric originally produced for another purpose to create new bags. Made of 100% repurposed durable nylon fabric. Each bag is different and the colorways are a surprise.

Recycled Plastic

The largest sector is plastic packaging,

36%

is designed to be single-use with immediate disposal.

More than 22 billion plastic water bottles are thrown away each year. Meaning only one in six water bottles purchased in the United States ends up being recycled.

The average water bottle weighs 12.7 grams, this equates to over half a billion pounds of waste each year. That's almost as heavy as the Empire State Building!

We work with suppliers who are trying to make a dent in this growing pile of waste by taking plastic from water bottles and creating sustainable reusable products.

RuMe Recycled Series

The same practical and useful bags from the brand you know and love but made out of recycled polyester.

Threadfast Ultimate Tee

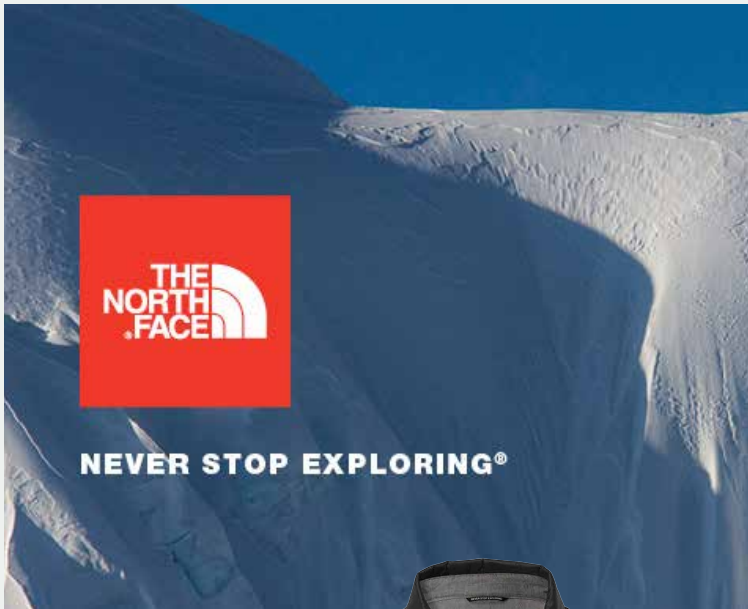

The ultimate tee collection that uses a polyester fiber made from recycled content, including plastic bottles. Compared to virgin fibers, our recycled poly consumes less petroleum, emits fewer greenhouse gasses and conserves energy.

District Re-Tee

100% recycled fabric and never re-dyed, made from reclaimed material that otherwise could end up in a landfill. Soft. Comfy. High-quality. Doing good for the planet feels as good on the inside as it does on the outside.

Recycling plastic saves twice as much energy as it takes to burn it.

The North Face Eco Jackets

Designed to transition between polished looks and casual style. These Eco jackets feature recycled polyester and helps reduce environmental impact.

It only takes

FIVE

recycled plastic
bottles to make
enough fiberfill
to fill a ski jacket.

The Eco Collection

The Eco Collection includes a variety of styles containing at least 35% recycled post-consumer waste, made primarily of recycled plastic bottles. Since launching this collection, the company has saved more than a million plastic bottles from landfills or oceans.

16oz Mason Jar with Felt Sleeve

Recycled dye-sublimated felt made from plastic bottles elevates the style of this 16oz mason jar drinkware. This item is made in the USA from recycled materials.

Dye-Sublimated Recycled Cord Organizer

Ready to keep all of your technology safe and organized while on the go. This felt organizer is sustainably made and produced from recycled plastic bottles.

167

The number of plastic bottles the average American consumes a year.

Parkland Bags

Established in 2015, Parkland Design & Manufacturing creates bags and accessories for everyday life. The exterior fabric of all Parkland products is made from 100% recycled water bottles. Our mission is to inspire others to make sustainable choices by offering products that combine purpose, style, and quality at an accessible price.

The Reclaim Series

These products are made from environmentally friendly RPET materials. All of the bags in this series are also part of a partnership with 1% For The Planet, where one percent of the sales of these umbrellas and other EcoSmart products will be donated to nonprofits dedicated to protecting the planet.

A Single
recycled plastic
bottle creates
50% less water
pollution than
making a new
plastic bottle.

Recycled PET Umbrellas

These umbrellas are made from 100% recycled PET material and feature a natural wooden handle. They are part of a partnership with 1% For The Planet, where one percent of the sales of these umbrellas and other EcoSmart products will be donated to nonprofits dedicated to protecting the planet.

Recycled Cotton

Recycled cotton is generally defined as converting cotton fabric into cotton fiber that can be reused in textile products. Recycled cotton includes recycled raw materials, reconditioned and remanufactured components.

The process of recycling cotton can divert many products from landfills. According to the Council for Textile Recycling, annual textile waste is estimated to equal 25 billion pounds.

On average, a
reusable bag makes

6,000

impressions in its
lifespan.

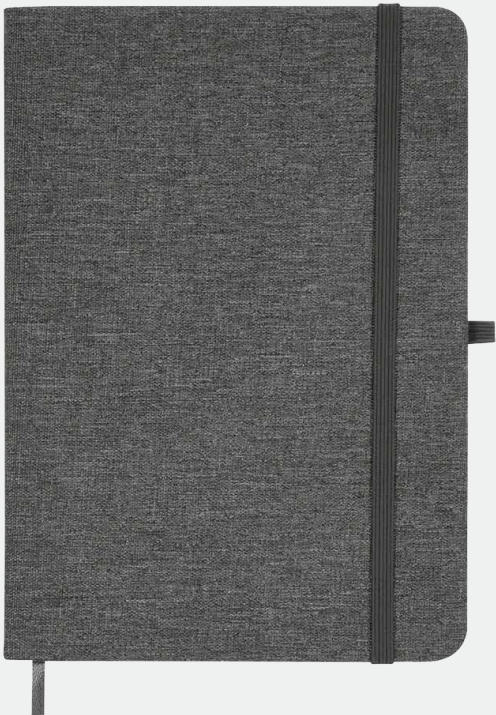

Recycled Cotton Twill Collection

This collection is made from cotton and pre-consumer cotton. Featuring a trendy color-block design. All of the bags in this series are also part of a partnership with 1% For The Planet, where one percent of the sales of these umbrellas and other EcoSmart products will be donated to nonprofits dedicated to protecting the planet.

Recycled Cotton Covered Journal

An 80 page lined journal with matching ribbon bookmark, elastic snap closure and pen loop.

Recycled Cotton Market Bag

Made of 8oz recycled cotton, this sturdy tote is perfect for carrying your essentials all over town. Features 22" handles.

Eliminating water-intensive dyeing processes are equivalent to skipping 6 weeks of showers.

Recycled Cotton Terry Beach Towel

Established in 2015, Parkland Design & Manufacturing creates bags and accessories for everyday life. The exterior fabric of all Parkland products is made from 100% recycled water bottles. Their mission is to inspire others to make sustainable choices by offering products that combine purpose, style, and quality at an accessible price.

Recycled Cotton Face Mask

Made of 30% recycled cotton, this double layered face mask will keep you safe and is eco-friendly.

According to the Council for Textile Recycling, textile waste is estimated to equal 25 billion pounds annually.

District Re-Fleece Collection

A cozy sustainable fleece that breathes new life into reclaimed materials with its 100% recycled fabric. Affordable, comfortable and never re-dyed, it's a fleece that just feels good. Made of 60% recycled cotton and 40% post-consumer recycled polyester. Available in four styles.

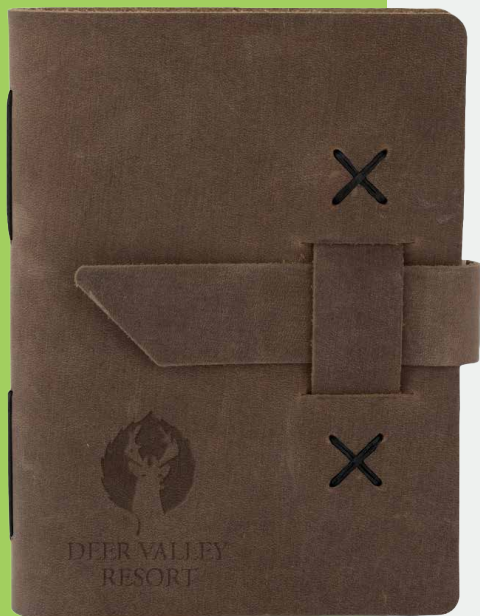

Made in the USA

Made in the USA

Products made overseas have a higher carbon footprint than U.S.A. made goods. Products made in China and India have to be shipped all the way across the ocean to reach American stores. During transit of these goods, many fossil fuels are burned and greenhouse gases emitted with every mile traveled.

If global shipping were a country, it would be the sixth largest producer of greenhouse gas emissions.

Journeyman Small Journal

Create something truly unique, something crafted just for you. These 5.25" X 7" journals feature a closure strap and loop. Choose from USA Made leather color.

Tasker Padfolio

A 9.5" X 12.5" padfolio. Choose from a variety of USA Made leather colors and customize it with linen accent colors and stitching colors.

One large container ship creates the same emission pollution as 50 million cars.

Natural Lip Moisturizer

Keep lips delicious and safe from the sun with natural lip moisturizer. The tube is even made of 35% post-industrial recycled materials.

Clear Hand Sanitizer with Carabineer

Keep it handy where ever you go with the convenient carabineer attached to the bottle. Germ-free on the go.

30 SPF Sunscreen with Carabineer

Stay safe from the sun with this 30 SPF sunscreen. Features a convenient carabineer attachment so it's easy to keep on hand and stash.

Trailblazer Gift Set

Open the handmade wooden box cover and find a fragrant candle, beautiful recycled gray felt journal, one-of-a-kind leather jewelry, and a debossed leather eyeglass case. Customizable down to the linen and leather colors and candle scents.

63,000

The amount of gallons of fuel the average container ship uses to sail for 30 days.

Bella+Canvas Unisex USA Tee

Made right here in the USA, this 100% cotton unisex t-shirt is perfect for everyday. Made of 4.2oz 100% airlume combed and ring spun cotton.

American Apparel USA Hoodie

An 8.2oz 50/50 poly cotton unisex hoodie that is made in the USA of both US and imported materials.

Coleman 6-Can Fliplid Cooler

High density foam insulated construction cooler for maximum thermal retention. The FlipLid™ stays attached and doubles as a tray for beverages.

Fun in the Sun Essentials Gift Set

Be ready for hot summer days and cool summer nights with this set featuring 1.9 oz. SPF 30 sunscreen, 1 oz. aloe gel, and SPF 15 lipbalm all organized in a dye-sublimated drawstring bag.

Local Sourcing

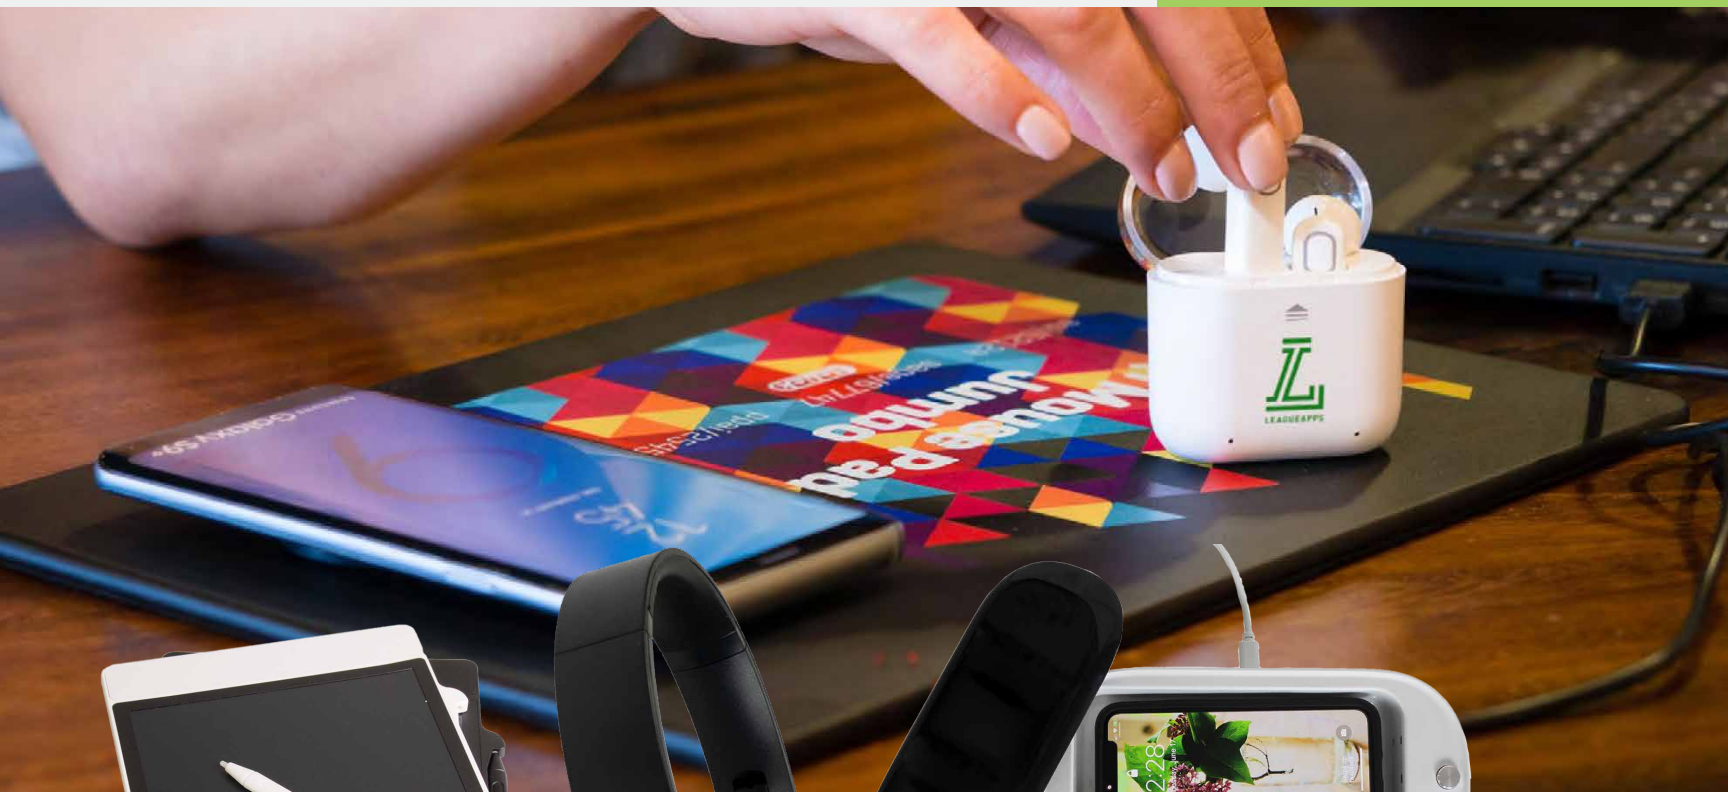

Local PNW

For every \$100 you spend
at locally owned businesses,

\$100

will stay in the community.

Products made overseas have a higher carbon footprint than U.S.A. made goods. Products made in China and India have to be shipped across the ocean to reach American stores. During transit of these goods, many fossil fuels are burned and greenhouse gases emitted with every mile traveled.

iClick Ready Ship

iClick is your mobile tech partner headquartered right here in Seattle, WA. Their Ready Ship program features a collection of products that are decorated in house in Seattle, reducing shipping cost for you and reducing greenhouse gas emissions during transit.

LOCAL

Buying local conserves energy & resources by reducing carbon emissions during transportation.

Kool Change Printing

With over 30 years of printing experience they are a local go to for quick, quality and budget friendly printing solutions. If you need printed materials, they will work to help design the project whether it is a small run of insert postcards or fully custom die cut shapes.

Design Matrix Group

The names says it all, for the past 20 years they have been a go to for garment printing, from screen printing to direct-to-garment printing, embroidery and in-house digitizing.

Hawkins Embroidery

Family owned with 30+ years experience, they are reliable, high quality and quick. From direct embroidery, 3D embroidery, patches and appliques Hawkins will masterfully decorate your garments to the highest standards.

Morris Magnets

Custom designed quality products. The majority of their products are custom cut from acrylic so they are uniquely designed just for your needs. From no-touch tools and bamboo stickers to awards and puzzles they have a wide variety of items locally made in Monroe, WA.

Small local businesses typically carry more locally-made products.

Socially Responsible Partners

71%

The percentage of employees that say it is imperative or very important to work where culture is supportive of giving and volunteering.

Brand Good

Choose a promotional product that makes a difference! Many of our supplier partners support great charities and causes. The product selection is continually growing as more and more suppliers join the cause. This is your opportunity to be a part of something larger.

Miir Products

Founded in 2010, Miir designs and offers intuitively functional and sleek products. Miir is the pioneer of the Product to Project movement, a business model where every product sold funds trackable giving products. It's giving projects in the clean water, health and food space address both domestic and international issues. Each product sold comes with a Give Code™ that customers may register to connect with a project and community.

1 in 9

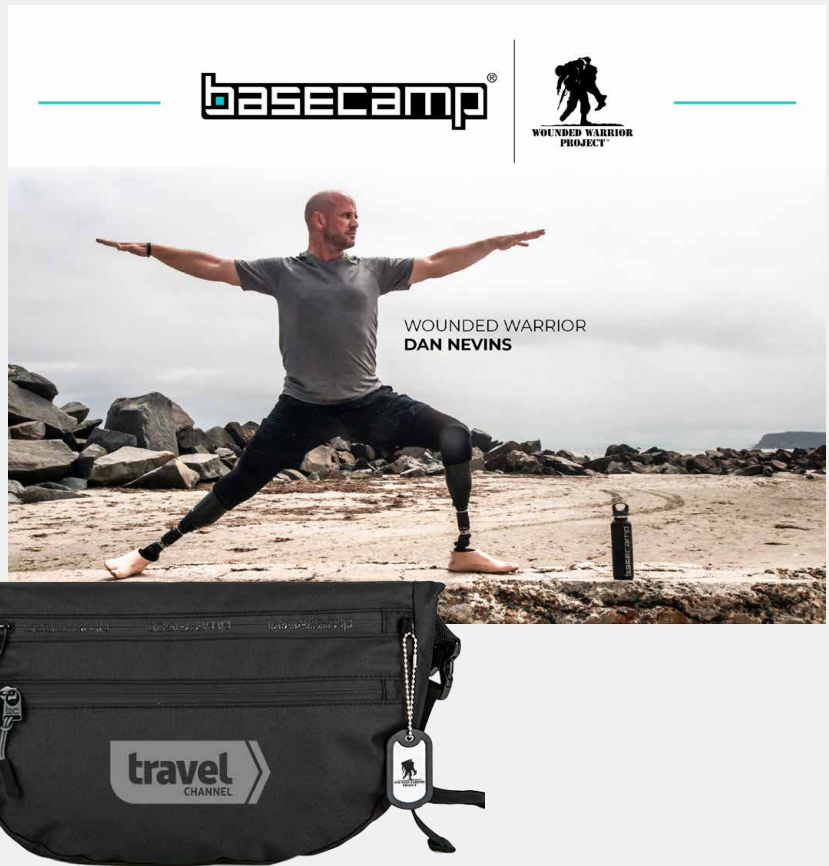

The number of people world-wide without access to safe and clean drinking water.

AWS Collection

The AWS collection is in memory of Bill Schmidt Sr, Founder of Hit Promotional Products. To honor his legacy, 5% of the proceeds from this collection are donated to the American Cancer Society, Make a Wish Foundation, St. Jude Children's Hospital and more!

Treatments invented at St. Jude have helped push the childhood cancer survival rate from 20% to 80%.

Basecamp Products

Your purchase makes a difference! Basecamp will donate more than \$100,000 in 2021 to support the Wounded Warrior Project's mission to honor and empower wounded warriors. This line offers a wide variety of products from apparel to tools.

More than 52,000 servicemen and women have been physically injured in recent military conflicts.

By investing in clean water alone, young children around the world can gain more than 413 million days of good health.

Welly Products

Welly products feature durable, double-walled stainless steel vacuum construction with copper insulation, which allows your beverage to stay cold for 48 hours and hot for at least 12 hours. Comes complete with on-trend, durable powder coating and the natural bamboo wrap. Welly contributes 3% of sales towards the construction of wells in areas without access to clean water.

Each Allmade t-shirt prevents up to 6 recycled plastic bottles from going into the ocean.

Allmade

A line of organic cotton and tri-blend shirts and masks that puts the needs of people and planet first, creating a positive impact you can feel great about.

allmade.
